DeWolfe called the meeting to order at 6:00 and turned the meeting over to David Toth who reported on the Intervener Status of the Northern Pass Project. He said that they met with Steve Whitley, an attorney, to discuss the legal aspects. The Water & Sewer Commissioners voted to hire Mr. Whitley. Whitley's first comment was to not drop intervener status. The attorney from Bristol has reached out and agreed to coordinate with them. There is a meeting in Lincoln on Tuesday at 9 am. Toth will keep the group informed through email.

Respectfully Submitted,
