

**Ashland Water and Sewer Commission Minutes**  
**March 17, 2015**  
**6 Collins Street**  
**Ashland, NH**  
**7:00 PM**

**CALL TO ORDER:** The meeting was called to order by Eli Badger at 7:00 PM

**MEMBERS PRESENT:** Members present at the meeting were Alan Cilley, Eli Badger and David Toth, newly elected Water and Sewer Commissioner.

**OTHERS PRESENT:** Others members of the public present were Christine Cilley, Mardean Badger, Normand DeWolf, Harold Lamos and Paula Hancock

**NEW BUSINESS:** The Commissioners reviewed the items on the evening's agenda. The Commissioners decided that due to a power failure affecting the building and meeting room the Commissioners decided that there would be an abbreviated meeting. The agenda for this meeting would be addressed at the next scheduled meeting of the Commission.

Harold Lamos came before the Commissioners briefly to outline a solar panel project for the town. The project would be administered by the Water and Sewer Commission. The project would involve the installation of solar panels in the vicinity of the water treatment plant. The advantages of the project to the Water and Sewer Department would be a possible tax credit. The solar project would convert solar to electricity which could then be sold to the citizens of Ashland. There is the possibility of grants to be obtained to offset the cost of the project. Several of the requirements needed to go forward with such a project are already in place. The Commissioners took the information under advisement and scheduled Harold Lamos to return for one of the Commission's May meetings for a more detailed discussion of the solar project.

**ADJOURNMENT:** With nothing more to come before the Commissioners at this time. Alan Cilley made a motion to adjourn. Eli Badger and David Toth seconded the motion. With three votes in the affirmative the motion passed. The meeting was adjourned at 7:10 PM.

Respectfully submitted,  
Paula Hancock  
For the Ashland Water & Sewer Dept.
